# Brijesh Sharma, MSc (Computer Science & Data Analytics)

Senior Enterprise Data Engineer | 6+ Years in Data & Technology
+1-314-583-4684 | harrybrijeshsharma@gmail.com | LinkedIn | Portfolio

## PROFESSIONAL SUMMARY

Data engineering and analytics professional with 6+ years of experience across insurance, finance, SaaS, sales, and marketing technology environments. Expert in end-to-end pipeline design, cloud data integration, data governance, and analytics. Designs LLM-powered applications and RAG pipelines, prototypes fast, and deploys secure, production-ready tools. Experienced with embeddings, vector databases, and API integrations that improve user and business workflows. Strong in Python, Snowflake, DBT, and cloud platforms (AWS, Azure), with expertise in secure API integrations and architectures.

## SKILLS

- **Applied AI & LLMs:** OpenAI & Claude APIs, embeddings, vector DBs (FAISS/Pinecone), RAG, NLP, fine-tuning
- **Build & Deploy:** SQL, Python, C/C++, DBT, Git/GitHub, JavaScript/TypeScript (for API integration)
- **Cloud:** AWS, Azure; security, compliance, governance
- **Data Engineering:** ETL/ELT, Data Modeling, Data Quality Tests, Pipeline Automation
- **Analytics & BI:** Text & Image processing, Tableau, Power BI, Qlik

## PROFESSIONAL EXPERIENCE

**Shelter Insurance** Columbia, MO | 2+ years total
*Senior Enterprise Data Engineer* July 2025 – Sept 2026

- Led end-to-end ownership for integration of insurance data into the Guidewire platform, enabling enterprise-wide access for underwriting, actuarial, and business teams; improved cross-system data accuracy.
- Designed and deployed DBT, Snowflake, PostgreSQL, and GitHub workflows for multiple projects, cutting migration time by 30-60%.
- Mentored junior engineers on data quality and pipeline automation.

**Shelter Insurance**
*Enterprise Data Engineer* May 2024 - June 2025

- Prototyped LLM-assisted normalized data reports with validation and knowledge lookup using embeddings/RAG, accelerating enterprise reviews and analyst throughput.
- Developed and automated ETL processes with data models and tests in Python/SQL; reduced pipeline-failure incidents by 40%.
- Built advanced dashboards (Snowflake, Tableau) enabling faster conversion, underwriting, and claims analysis.
- Managed and optimized large-scale data pipelines to support data integration.

**NextGen Invent + JP Morgan** Syosset, NY, USA
*Data Engineer* Jun 2023 - Mar 2024 | 10 months

- Built ETL pipelines and BI dashboards for Dynamics 360 sales data; rapidly prototyped and deployed, leading to improved forecasting by 20%.
- Deployed AI-driven dashboards used daily by the sales team, reducing churn by 50%.
- Built reusable reporting framework across client accounts to summarize client information and sales notes to surface opportunities inside dashboards.

**NextGen Invent**
*AI & Data Solution Specialist* June 2020 - Aug 2021 | 1 year 3 months

- Modeled and consolidated sales datasets into analytics-ready structures, boosting project wins.
- Created proposals and contracts for data engineering projects that secured recurring engagements for the data team.

**Lambdatest** - *Product Specialist* Oct 2019 - Mar 2020 | 6 months

- Enhanced BI tools and data models, improving accessibility for cross-functional teams.

**Jungleworks & Jugnoo** - *Data Analyst – Marketing & Sales* Aug 2017 – Nov 2019 | 2 years 5 months

- Analyzed customer usage data to guide product improvements and increase retention.
- Partnered with sales to optimize growth strategies and recurring revenue.

## PROJECTS & LINKS

- **Insurance Agency AI Performance Analyst -** GitHub Link
  Python, SQLite, Gemini; modeled 213,328 insurance records in a Kimball star schema and built a read-only text-to-SQL app with 16 data checks and 12 evaluation cases.
- **Building a Data Pipeline for Car Price Prediction using Dagster -** Website Link | GitHub Link
  Python, Dagster, Scikit-learn, PostgreSQL; 92% accuracy; exposed as an internal service for predictions.
- **Healthcare Data JSON to Dataframe & CSV -** GitHub Link
  Python/Pandas pipeline enabling downstream AI-powered analysis.
- **Sentiment Analysis on Welsh Language Twitter Data -** GitHub Link
  NLP with embeddings + Naive Bayes; 86% F1; lightweight demo for exploration.
- **Facial Expression Recognition -** Medium Article Link
  TensorFlow/Keras CNN + OpenCV; 94% accuracy.

## EDUCATION

**INDIANA WESLEYAN UNIVERSITY (IWU)** Merrillville, IN, USA
*Master's in Data Analytics* Jun 2026 – Present (Dec 2027)

**SAINT LOUIS UNIVERSITY (SLU)** St. Louis, MO, USA
*Master's in Computer Science* Aug 2021- May 2023
GPA: 3.61/4.0

**LOVELY PROFESSIONAL UNIVERSITY (LPU)** Phagwara, PB, India
*Bachelor's in Computer Science & Engineering* Aug 2014 - May 2018
CGPA: 7.89/9

## ACHIEVEMENTS

- 3 X Quarterly Outstanding Performance Achievement Award - Dec 2024, Mar 2025, Jan 2026 at Shelter Insurance, Columbia, MO, USA.
- Won 1st prize at SLU International Gala & talent show 2022.
- Awarded an all-expenses-paid trip to Dubai for being the top performer of the team in August 2018

## CERTIFICATIONS

**Astronomer Certification for Apache Airflow 3 Fundamental** Online, USA
Astronomer Mar 2026

**AIDA 181: Big Data Analytics for Risk and Insurance** Online, USA
The Institutes Sep 2024

## ADDITIONAL

- **Languages:** Fluent in English, Hindi & Punjabi
- **Soft Skills:** Leadership, Communication, Stakeholder Collaboration, Team Mentoring, Public Speaking
