

BRIJESH SHARMA

SENIOR DATA ENGINEER | ENTERPRISE DATA PLATFORMS | SNOWFLAKE & DBT

Columbia, MO (Open for Remote or On-site) | +1 314-583-4684 | harrybrijeshsharma@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior data engineer with 6+ years of experience delivering enterprise data pipelines, governed data models, analytics, and AI-enabled prototypes across insurance, SaaS, sales, and marketing. Hands-on with Python, SQL, Snowflake, dbt, PostgreSQL, Git/GitHub, AWS, and Azure. Known for improving pipeline reliability, accelerating migrations, protecting sensitive data, and translating business requirements into trusted data products for underwriting, actuarial, claims, and commercial teams.

TECHNICAL SKILLS

Data Engineering: Python, SQL, ETL/ELT, dimensional modeling, data quality testing, pipeline automation, REST/API integration

Platforms: Snowflake, dbt, PostgreSQL, SQL Server, MySQL, Git/GitHub, Informatica, AWS, Azure

Insurance & Governance: Guidewire integration, underwriting/claims data, PII controls, validation, reconciliation, compliance

Analytics & AI: Tableau, Power BI, Qlik, Pandas, scikit-learn, TensorFlow/Keras, RAG, embeddings, FAISS/Pinecone

PROFESSIONAL EXPERIENCE

Shelter Insurance

Columbia, MO

Senior Enterprise Data Engineer

Jul 2025 – Sep 4, 2026

- Owned end-to-end integration of insurance data into the Guidewire ecosystem, improving trusted access for underwriting, actuarial, claims, and business teams.
- Designed and delivered Snowflake, dbt, PostgreSQL, and GitHub workflows across multiple initiatives, reducing migration timelines by 30–60%.
- Strengthened data quality, validation, and pipeline automation practices while mentoring junior engineers and training six transition resources.

Shelter Insurance

Columbia, MO

Enterprise Data Engineer

May 2024 – Jun 2025

- Developed Python/SQL ETL processes, reusable data models, and automated tests that reduced pipeline-failure incidents by 40%.
- Prototyped an LLM-assisted workflow for COBOL-to-normalized-data review, combining validation and retrieval-based knowledge lookup to accelerate analyst review.
- Built Snowflake and Tableau reporting assets that enabled faster underwriting and claims analysis while supporting large-scale data integrations.

NextGen Invent

Syosset, NY

Data Engineer

Jun 2023 – Mar 2024

- Built ETL pipelines and BI dashboards for Dynamics 360 sales data, improving forecasting by 20%.
- Deployed AI-assisted dashboards used by sales teams and contributed to a 50% reduction in churn.
- Created a reusable reporting framework that summarized client information and sales notes to surface opportunities across accounts.

SELECTED DATA & AI PROJECTS

Car Price Prediction Data Pipeline | [Article](#) | [GitHub](#) — Python, Dagster, scikit-learn, and PostgreSQL pipeline achieving 92% model accuracy and exposing predictions through an internal service.

Healthcare JSON-to-Analytics Pipeline | [GitHub](#) — Python/Pandas workflow converting semi-structured healthcare data into analysis-ready DataFrames and CSV outputs.

Welsh-Language Sentiment Analysis | [GitHub](#) — NLP classification using embeddings and Naive Bayes, achieving an 86% F1 score.

Facial Expression Recognition | [Article](#) — TensorFlow/Keras CNN with OpenCV, achieving 94% accuracy.

EARLIER EXPERIENCE

NextGen Invent | AI & Data Solution Specialist | Jun 2020 – Aug 2021

- Consolidated sales data into analytics-ready structures and created proposals and contracts that supported recurring data-engineering engagements.

LambdaTest | Product Specialist | Oct 2019 – Mar 2020

- Improved BI tools and data models for cross-functional users and researched market opportunities supporting revenue growth.

Jungleworks & Jugnoo | Data Analyst – Marketing & Sales | Aug 2017 – Nov 2019

- Analyzed customer-usage data to guide product improvements, retention initiatives, and sales growth strategies.

EDUCATION

Indiana Wesleyan University	Merrillville, IN
Master's in Data Analytics	Jun 2026 – Present
Saint Louis University	St. Louis, MO
Master's in Computer Science GPA: 3.61/4.0	Aug 2021 – May 2023
Lovely Professional University	Phagwara, India
Bachelor's in Computer Science & Engineering CGPA: 7.89/9	Aug 2014 – May 2018

CERTIFICATIONS & RECOGNITION

- Astronomer Certification for Apache Airflow 3 Fundamentals — Mar 2026
- AIDA 181: Big Data Analytics for Risk and Insurance, The Institutes — Sep 2024
- Three Quarterly Outstanding Performance Achievement Awards, Shelter Insurance — Dec 2024, Mar 2025, Jan 2026
- First Prize, Saint Louis University International Gala & Talent Show — 2022
- All-expenses-paid Dubai trip for top team performance — Aug 2018

ADDITIONAL

Languages: English, Hindi, Punjabi | **Leadership:** Stakeholder collaboration, team mentoring, training, public speaking
